

CURRICULUM

MASSIMILIANO RIZZO

My name is Massimiliano Rizzo, born in 1990.
I studied in Venice and started working in Milan as a
Graphic and Motion Designer.
I still work as a freelance traveling the world for 10 years.

MY STORY

I attended the Graphic Design course
at the Academy of Fine Arts in Venice.

I have always tried to translate the excellent
academic results into something practical,
participating with some success in various
competitions, especially in the field of graphics,
video and photography.

I graduated in February 2013 in
New Technologies for the Arts /
Graphic Design.

In September 2013 I moved to Milan where I
started working for some agencies and I started
experimenting in graphics, video and photography.

Since 2015 I have been working as a freelancer.

I want to be creative and eclectic! I really want my
work to be original and appropriate.

ME NOW

Now I'm working with companies and
communication agencies.

To mention some of the latest
collaborations: H-FARM, AKQA, Efesto
Studio, Quasar Production, OverIT,
Electrolux.

Parallel to all this, I often carry out personal
projects such as the total restyling of a basketball
club (where i played :D) or the brand identity of our
home honey. I often draw and paint making myself
t-shirts and I'm experimenting with the world of AI.

My works include *Graphic and Motion
Design, Video and Photo editing, UI.*

I LOVE CREATIVITY IN
ALL ITS FORMS.
